

# PROJECT

## Package Pump Stations

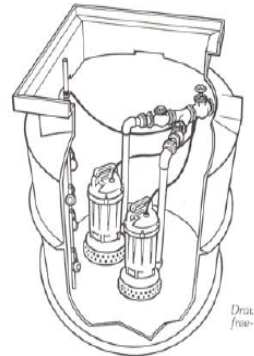

### PROJECT – 250 Litre Polyethelene Tank

All in-tank fittings incorporated in the packaged pump station as follows

- Gate & non-return valves, barrel unions, PVC interconnecting piping pipe work
- Inlet pipe to be installed by plumber unless otherwise specified.

**Suitability** - Single Pump Application pumping grey water; storm water; effluent Raw Sewage; Trade Waste.

**Optional:** Class C Gatic Lid.

#### Specifications:

**250 Litre** - Depth 900mm; Outside Dia. 730mm; Access Cover 600 x 600mm; Weight 25kg (excl. Pump).

### PROJECT – 1000 and 1200 Litre Polyethelene Tank

All in-tank fittings incorporated in the packaged pump station to include:

- Gate & non-return valves, barrel unions, PVC interconnecting piping.
- Inlet pipe to be installed by plumber unless otherwise specified.

**Suitability** – Single or Dual Pump Applications pumping grey water; storm water; effluent Raw Sewage; Trade Waste.

**Optional:** Guide Rails; Class C Gatic Lid.

#### Specifications:

**900 Litre** - Depth 1200mm; Outside Dia. 1120mm; Access Cover 600 x 600mm; Weight 45kg (excl. Pump).

**1200 Litre** - Depth 1600mm; Outside Dia. 1120mm; Access Cover 600 x 600mm; Weight 62kg (excl. Pump).

**3000 Litre** - Depth 2125mm; Outside Dia. 1730mm; Access Cover 900 x 600mm; Weight 165kg (excl. Pump).

### Single & Dual Control Panels

Suitable for pump ranges of 0.25 - 7.5Kw. 3 Phase & 0.25 -2.2kW Single Phase. The standard panel is full metal with the touch pad controls on the front face. Available is an option to have a full metal enclosure with all the controls behind a lockable door Dual pump Control 400x300x150mm Dual lockable pump control 400x400x200mm

### High Level Alarm:

Exciting new and improved Stand alone 240 volt level alarm designed to provide warning indication when a storage tank is either full or empty. The updated control is characterised by:

- Embossed touch pad controls.
- IP55 plastic enclosure.
- 1.75 m power cable and three pin plug.
- Low voltage float switch circuitry.
- 10 m three wire float switch.
- Long life LED Power on and level alarm visual Indicators.
- Industrial grade high level external buzzer.
- Supplied pre wired for high level alarm applications.
- Simple DIY installation.
