

Project Pumps and Foran Industries Working Together in the Building and Construction Industry.

Project Pumps for the past 10 years have been preferred suppliers of pumping and waste water treatment equipment to Foran Industries and in the past 12 months have recommended and supplied equipment for the following contracts.

Foran Industries managers, Rod and Luke Foran say 'I always know that the equipment recommended and supplied by Project Pumps is a quality product which will always meet the required design specifications'. 'Their personnel are hands on type of people who are contactable 24 hours a day'.
